GREENVILLE, KY., THURSDAY, AUGUST 9, 1917

50c. PER YEAR, IN ADVANCE

War Planes and Weapons on View At Kentucky's Great State Fair

Remarkable Features of Festal Week Secured by
Energy and Enterprise of Hard Work-
ing Fair Officials

HON. MAT S. COHEN,
President Kentucky State Fair.

FOUNT T. KREMER,
Secretary Kentucky State Fair.

THE Kentucky State Fair belongs to the people, is of the people and for the people, but credit for this great achievement, which during a period of fourteen years has meant much to the commonwealth at large and which now bears vital relation to the welfare of the state, belongs in fullest measure to two officials, the commissioner of agriculture and the State Fair secretary.

Upon the shoulders of these two men falls the burden of responsibility for the gigantic undertaking of summing up in one festal week the agricultural and live stock industries, accomplishments and achievements of the entire state for the year, and both must be possessor of abilities beyond the ordinary measure of man.

Commissioner Cohen's Fine Record. Commissioner of Agriculture Mat S. Cohen steps into the arena of State Fair accomplishment this year with the poise and assurance of a major general, unequaled and universally applauded success in the handling of his colossal task and with the pre-eminent satisfaction of knowing that he has succeeded in adding to the fifteenth annual Kentucky State Fair, to be held in Louisville the week of Sept. 10, the most remarkable features ever associated with a State Fair. Spectacular among his accomplishments is the securing of the \$10,000 stake for five gaited saddle horses and the unprecedented increase to \$1,000 in premiums for county exhibits. Both these brilliant feats are in direct line with the appeal of the Washington government for a stimulation and increased activity in stock raising and food production and followed his several consultations at Washington with national bodies in regard to keying up the state to its highest point of output both in food as well as stock. From these meetings resulted the government's decision to get behind the State Fair with exhibits which will double its already mammoth list of attractions.

Of keenest interest to the public in general with doubtless be the government's showing on manikins of the arms, uniforms and paraphernalia of the great nation now engaged in the European war, together with war planes and weapons of destruction. Government officers say that the country has been combed for cavalry and artillery horses, and Commissioner Cohen's great plan and splendid achievement in securing for the State Fair the \$10,000 stake, as announced, comes at a psychological time and is expected to have a saving stimulus on the horse breeding industry of the state.

PRIZE LIST OF \$1,000 FOR STATE FAIR COUNTY EXHIBITS

Through the efforts of Commissioner of Agriculture Mat S. Cohen the agricultural products of Kentucky will occupy a very conspicuous and distinctive position at the fifteenth annual Kentucky State Fair, to be held in Louisville the week of Sept. 10. This year the prize list for county exhibits has been placed at the remarkable figure of \$1,000, and in consequence the attention of the entire agricultural interests of the state will be centered on this particular feature of the big annual celebration. The prize list was announced the first part of the year as reaching the sum of \$700. This sum was increased recently through the efforts of Mr. Wood Crady of the Louisville Chemical works and of the agricultural committee of the board of trade. He induced the board of trade members to vote an additional sum of \$200 and his firm to add another \$100 to this amount, thus securing for the county exhibitors of the state the unprecedented sum total of \$1,000. As the list now stands the county winning first prize will receive \$400 in cash, the county winning second prize will receive \$250, and the winner of third prize will receive \$150. This list

the three prizes from \$250, \$150 and \$100 to the above figures and gives to the Kentucky State Fair the largest prize list for county exhibits ever offered by any state fair in the United States with the exception of Dallas, Tex., which is the largest and richest fair in the country and has been in existence twice as long as the Kentucky State Fair. In addition to the cash awards for the best county exhibits, Colonel E. H. Taylor, Jr., of Frankfort, Ky., will give to the county winning first prize a handsome sterling silver cup, which will be known as the "Old Taylor Cup" and which will be worth \$100. To the man or woman working up interest in the county exhibit winning a prize will be given a "booster's award" of \$50 for the representative of the county winning first prize, \$25 for the representative of the county winning second prize and \$15 for the representative of the third prize winner. For catalogue or information address Fount T. Kremer, Secretary Kentucky State Fair, Suite 604 Republic Building, Louisville, Ky.

Make your plans to visit the fifteenth annual Kentucky State Fair, to be held in Louisville the week of Sept. 10. This is "doing your bit" toward stimulating and encouraging agriculture and stock raising in accordance with the government's call.

The KITCHEN CABINET

They who have sunny dispositions are always on the sunny side of every street.

Kindness is the golden chain by which society is bound together.

CHAFING DISH SUPPERS.

A chafing dish is generally used for formal occasions, and nothing is more conducive to the general pleasure than something for several to do to assist in the preparation of the meal. For Sunday night suppers where there is a guest or two the enjoyment will be double if they take part in getting things ready. This is also a time to let the man of the house use his ingenuity as well as the children, everybody loves to watch a meal in preparation especially if all the appointments are pleasing.

For the server at the chafing dish table the chair should be high so that all the stirring and seasoning may be done with ease. The chafing dish should be set upon a metal tray, the lamp carefully filled, all utensils needed near at hand. Pure alcohol should be used in the lamp, as an inferior one gums and spoils the lamp. One of the essentials in all work, especially in table preparation, is noiseless work, so the wooden spoons are better to use than metal ones. The carved silver affairs may be used for serving.

With the spoons as utensils for preparations should be small receptacles of salt, pepper, celery salt and paprika. If onion is used it should be finely minced and placed in a small, attractive dish. All ingredients should be prepared beforehand, and placed in pretty receptacles within easy reach. A wheel tray is a most convenient assistant, saving many steps, the soiled dishes may be quickly gathered and removed and all the supplies kept on it. If wished, dainty finger rolls or sandwiches are the usual accompaniment to any dishes served from the chafing dish, these are prepared beforehand. A salad is another well-liked dish. This may be either sweet or more substantial, depending upon the other dishes served.

Another good combination is hot bouillon, pepper salt, creamed halibut, celery, sponge cake, coffee. Creamed oysters, cheese sandwiches, chicken in cream sauce, omelet and goulash are all dishes which may be served successfully from a chafing dish.

More Money Dishes.

Here are a few more ways of using honey in various dishes:

Honey Jumbles.—Take two cups of honey, one cup of butter, four beaten eggs, one cup of buttermilk, a quart of flour, and a teaspoonful of soda.

If it seems too thin, stir in more flour. Eggs, butter and honey should be thoroughly mixed before adding the flour.

Coffee Cake.—Cream a cupful of butter; add one and a half cups of sugar, two beaten eggs, a cupful of cold coffee, a half cupful of honey and a teaspoonful of soda, one teaspoonful each of cinnamon and cloves, four cups of flour, with as many raisins and currants as desired. Let stand 20 minutes before baking.

Cambridge Gingerbread.—Melt half a cupful of butter, in a half cupful of boiling water; add a cupful of honey, one beaten egg, three teaspoonfuls of baking powder, a half teaspoonful of salt, one teaspoonful of cinnamon, a half teaspoonful of ginger and three cupfuls of flour. Bake 40 minutes in a moderate oven.

Cracker Jack.—One cupful of honey with a cupful of brown sugar is boiled together until it hardens when dropped in water. Remove from the heat and stir in a half teaspoonful of soda. Add sifted rice or popcorn all that can be stirred into it.

Horseshoe and honey mixed together make a most effective cough remedy. Use one part horseshoe and two parts honey.

Sort Honey Cake.—Take a cupful of butter, two cupfuls of honey, two eggs, one cupful of sour milk, a teaspoonful and a half of soda, a teaspoonful each of cinnamon and ginger and four cupfuls of flour. Mix and beat well and bake in a sheet.

Heavy strained and mixed with chopped fruit and whipped cream makes a delicious fruit dessert.

A few dishes which may be easily served are: **poached eggs in prepared asparagus, preceded by a fruit cocktail, brown bread sandwiches, radishes, orange and pineapple salad, cheese straws, coffee or hot chocolate.**

Nellie Maxwell

They are slaves who fear to speak. For the fallen and the weak. They are slaves who dare not be in the right with two or three. Lowell.

GRADUAL CHANGE IN FEEDING

When Turning Cows on Fresh Pasture Grain Supply Should Be Continued for Short Period.

The practical dairymen has learned that any radical change in the winter feed of his cows should be made gradually if the milk flow is not to suffer. He is most likely to overlook the effects of turning his cows out to the fresh spring pastures.

Experiments which the Missouri college of agriculture has conducted have shown that a sudden change to pasture in the spring is likely to cause the cows to be underfed for several days. These fresh pastures are succulent, their water content is very high, and the cows are not accustomed to depend on their own activity for the food necessary for their milk. One of the results of this underfeeding, which is practically likely to occur with heavy or moderately heavy producers, will be a drop in the milk flow. It is difficult to raise this flow after it has once dropped, especially if it has been some time since the animals have freshened.

This underfeeding will also affect the composition of the butterfat. It is important that all changes of feed of dairy cows, including the change to fresh pasture should be made gradually, and good milk-producing animals should be fed some grain in addition to the pasture. This will prevent the possibility of underfeeding. The grain feeding should be continued at least until the pastures become mature and the cows become accustomed to graze for their food.

DISEASE OF IRISH POTATOES

Scab, Most Common Trouble, Can Be Almost Eliminated by Soaking Seed in Formaldehyde.

One of the most common diseases of any field crop is the scab of the Irish potato. This disease can be almost eliminated by soaking the planting seed in formaldehyde, and planting in ground that is free from the disease. The formaldehyde may be obtained at any drug store. Mix one part of the substance 40 per cent with 30 gallons water. Before cutting the potato and just before you are ready to plant soak them in this solution for one and one-half to two hours. Do not let potatoes come in contact with soils which have contained diseased potatoes. All of the potatoes should be soaked immediately as the solution loses strength if allowed to stand several days. It is so little trouble to soak potatoes in this solution that it is utterly foolish to plant them without.

FATTENING FEED FOR STEERS

Result of Experiment Conducted by Iowa State College—Increased Gains by Using Silage.

Silage has cheapened the fattening ration for steers. In an experiment conducted by the Iowa State college, one lot, receiving each per day 17 pounds shelled corn, 29 pounds silage, two pounds oil meal and one and a half pounds alfalfa, made gains at a cost of \$9.57 while another lot receiving

eight and a half pounds corn, 51 pounds silage, two pounds oil meal and one and a half pounds alfalfa, made gains at a cost of \$7.67. The first lot averaged 2.94 pounds gain per day, while the second lot averaged 3.04 pounds. Reducing the corn and increasing the ensilage increased the gains and cut down the cost of making the gains.

PIGEON IS NOT DESTRUCTIVE

Beaks Are Not Made to Dig With and Feet Are Not Fit for Scratching—Pick Up Weeds.

Pigeons are not destructive to gardens, as is commonly believed. Their beaks are not like that of the crow, to enable them to dig with, nor have they feet like chickens to scratch with.

Pigeons simply walk over the surface of the ground and pick up what is in plain sight, which consists principally of weed seeds.

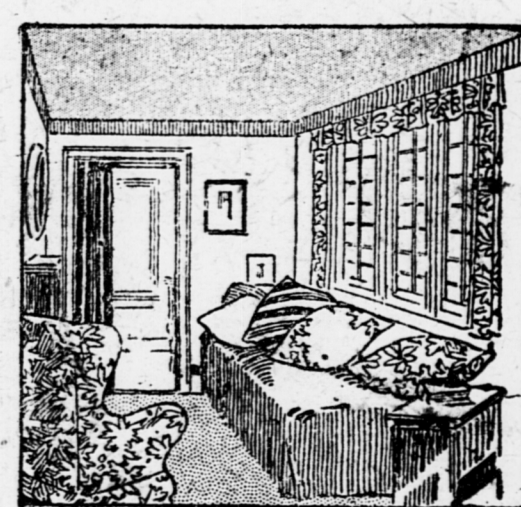

ORCHARDS CLOSE TO HOUSES

Receive Better Care and Attention From Owner Than Those at Some Distance Away.

Orchards close to the house receive better care and attention, for their needs are before the owner all of the time.

They are protected from prowlers, which is an important consideration of those living close to towns or cities.

The Victor system of changeable needles enables you to meet every acoustic condition

A "fixed point" can't be perfect for all conditions! If it is perfect for the ball-room it won't be perfect in the den.

If it's perfect in the den it will be inadequate in the ball-room. If it is perfect for one music-room it will not be perfect for another music-room which is different in size, acoustic properties and furnishings.

Consequently changeable needles are best, because—in no other way can reproduced music be perfectly suited to every home and to any room in that home without in the least degree changing the artist's interpretation. That can be done only with the Victrola because of the changeable needles. It can not be done by any sound reproducing instrument which is unable to adapt itself to its own particular surroundings.

There are Victrolas in great variety of styles from \$15 to \$300—easy terms if desired. Come in and we'll gladly play any music you wish to hear and demonstrate the advantages of the Victor system of changeable needles.

IHC Wagons Are Tough

Did you ever notice when one of the wheels of your loaded wagon dropped into a rut or bumped over a stone how the seat springs gave and rebounded, almost throwing you off? That is an indication of the shock and strain that the rigid spokes and axles have to stand whenever the wagon is traveling over a rough road or through a field. IHC wagons

Weber New Bettendorf Columbus or Steel King

take these stresses and strains as a matter of course. From neckyoke to tail board they are built of selected, air-dried lumber, strong and tough, bending to strains but coming back as straight and true as ever when the load is removed. Besides being tough, IHC wagons are light running. The wheels have just the right pitch and gather, and run true. All skids and skein boxes are paired. The running gear is assembled by skilled workmen whose wages depend as much on the quality as on the quantity of the work they turn out. Consequently, IHC wagons are practically all of the same high standard of quality throughout.

Weber and Columbus wagons have wood gears; New Bettendorf and Steel King have steel gears. To learn which IHC wagon is best suited to your work and conditions, write our nearest office for interesting catalogues.

ANNOUNCEMENTS.

For Congress.

We are authorized to announce that HENRY H. DEN HART, of Warren county, a candidate for Congress from the Third Congressional district, subject to the action of the Democratic primary to be held in August, 1918.

Our Country! In her intercourse with foreign nations she always be in the right; but our country, right or wrong.

—Stephen Decatur.

SOME people are shying at Hooverism for no other reason than that it means efficiency in getting food to the people.

WHILE the busy housewife puts up all manner of desirable fruits and vegetables in cans for winter use she shows a very superior quality of patriotism as compared with that of the congressman who wails his collar yelling at Hoover.

INDUSTRY must go on during the war without interruption. To this end all peaceable and orderly agencies of justice must co-operate in securing and maintaining industrial conditions that will give every interest of labor its due.

It is "supererogatory," alleges a fellow photographer, to knock together an uncouth word like "commandeer" when we already have "seize" and "confiscate." Perhaps. But of all the words in the alleged English language there are no so uncouth, difficult and so absurdly inefficient as "supererogatory."

It is all very well to conduct war without passion, coolness being an element of efficiency, but the difficulty is to remain cool and passionless when one hears on the one hand stories with names and dates and evidence of German atrocities and on the other hand he hears protests against our sending American troops to Europe to do our bit for democracy.

Coal Profits.

One war certainty for the United States is a reduction of inflated profits obtained from circumstances imposing upon the necessities of people. Unavoidable circumstances will be bitter enough. Man made difficulties, selfishly contrived by war profiteers to take advantage of extraordinary conditions, will be removed, we think.

That idea may penetrate the minds of the coal operators finally, as well as the minds of other exploiters of abnormal conditions. The temper of the people will not permit submission to outrageous imposts. The government will not submit to it. Profits taken out of distress and suffering are scandalous and damnable. Nero, who fiddled while Rome burned, was a humanitarian as compared with the man who plays the cash register while brave men give up their lives.

Injured by Dynamite Cap.

Two little girls of Wick Christian and one of Dave Gish, all colored, were severely injured Monday morning by the explosion of a dynamite cap which they were playing with. They were cut about the face and hands, but were lucky to escape with their lives.

Get LaZaro Victor records at \$1.50 at Roark's.

Fifty Men Killed In Mine Explosion.

One of the worst mine disasters which has ever visited Kentucky occurred at Clay, in Webster county, last Saturday morning, when an explosion of gas in the West Kentucky Mine opening killed about fifty men, and severely injured many more of the 250 at work. It has not been determined what caused the explosion, though it is claimed that the electric feed wires to the mine had been tampered with.

Pointed Paragraphs.

Some folks are inclined to mind their own business.

It is useless for a man to study who doesn't think.

Certainly Noah had fruit in the ark—preserved pairs.

Dead men tell no tales, but many an epitaph is a frightful lie.

The heiress who invests in a title doesn't always purchase happiness.

The earl milkman catches a glimpse of a woman's true complexion.

Many of the words that burn go from the waste basket into the incinerator.

How men drink staggers a woman but what they drink staggers the men.

Not what a man knows but what he doesn't tell shows his essential wisdom.

Incompatibility of temper means that both parties have the same kind and plenty of it.

Lots of people wait in vain for their ships to come in because they neglected to launch them.

The true American doesn't want to be a king—but he may bet his last cent on four of them.

Celebrities learn that it takes a man longer to acquire fame than it takes others to forget all about him.

It's no mark of superiority to get drunk on drug store whisky in preference to the stuff that is to be purchased in a saloon.

In the Hills.

I write this rhyme 'mid scenes sublime in far famed Colorado, where hills so high they scrape the sky throw out a cooling shadow. Long's Peak uplifts its shining drifts of snow that knows no melting; I'm cool as tar, while where you are, heat rays are fiercely pelting. The crystal rills that seam the hills attract my fat attention, and aspens quake by lonely lake too beautiful to mention. Here nature spent her last red cent to make a scene entralling, with crags and woods and other goods and mountain torrents brawling. And tourists roam far, far from home upon this scene, elysian; they're swarming o'er the rocky floor and jar my startled vision. For they're attired in garb all-fired, in garments plainly dippy, in side show rags they scale the crags and toil up pathways slippery. It seems too shames that men and dames, when they go for an outing, must cause distress by wearing dress so loud it's fairly shouting. The mountains blush when tourists rush along the pathways rutty in rags that scare the wolf and bear and drive the woodchucks nutty. Walt Mason.

City Ordinance.

An ordinance to amend Section 1 of an ordinance regulating the sale of soft drinks in the City of Greenville, Ky., and imposing a license tax thereon.

The City Council of the City of Greenville do ordain as follows:

That Section 1 of an ordinance regulating the sale of soft drinks in the City of Greenville and imposing a license tax thereon, be amended by adding thereto, beginning after the word "quantity," at the end of the eighth line thereof, the words "or any substitute for or imitation of beer, which looks, smells or tastes like beer," so that said section when so amended shall read as follows:

Sec. 1. It shall be unlawful for any person, firm or corporation to sell, barter, loan, give, offer or expose for sale in the City of Greenville any soft drink fermented or unfermented, and containing as an ingredient thereof alcohol or any principle thereof in any quantity, or any substitute for or imitation of beer, which looks, smells or tastes like beer, without having first procured from the City Clerk a license so to do, as hereinafter provided.

Filed April 2, 1917.

Adopted May 7, 1917.

H. C. Lewis, Mayor.

Orien L. Roark, Clerk.

WANTED

Fifty young men and women for the Business Department of Bethel College, Russellville, Kentucky.

The war has caused a very unusual demand for bookkeepers, stenographers and typists. Bethel college has an exceptionally fine Business Department. Professor Homer Felts is efficient Principal of this department and he is having many calls for graduates which he cannot supply. In order to meet this increased demand a special course will be offered this fall, including Bookkeeping, Stenography, Typewriting, English, Arithmetic, Spelling and Rapid Calculation for only \$50 for five months.

Many of the graduates in this department are holding profitable positions. Four graduates are in the employ of the L. & N. Railroad Company in Russellville. Three others are employed in the local post office. Seven other young ladies are employed in offices in Russellville. Cecil McLean, 16 years old, started at \$60 per month as stenographer for the Crescent Coal Company, Bevier, Kentucky. G. L. Anderson, 17 years old, is stenographer for W. A. Chambers Company, Nashville, Tenn. Miss Effie Lou Davis, who receives a handsome salary writes: "I owe my excellent position with the United States Radiator Corporation to the efficient training I received in the Business Department of Bethel College." Mrs. Lillie D. Moore is teaching Commercial branches in a Business College in North Carolina at a salary of \$90 per month. Mr. Garnett E. Hunt commenced work with the wholesale jewelry firm of Jones, Mounts & Jones of New York three years ago at a nominal salary of \$50 per month and rapidly rose by promotion until he now receives \$5000 per year. For further particulars write to Professor Homer Felts, Russellville, Kentucky.

Dies Here Tuesday Morning.

Mrs. Laura A. Kimmel, 68 years old, wife of Mr. J. H. Kimmel, died at 4 o'clock Wednesday morning at the home of her son, Mr. D. O. Kimmel, on North Cherry street, from a complication of ailments, from which she had been a sufferer for some time. Deceased was a woman of many excellent traits, was a Christian of a perfect type, and had made friends among all who knew her. Her activities were largely for others, and her death has caused the deepest grief in many quarters. The body will be carried to Ceralvo today, and interment will be made there. Her husband and children are joined by many friends in their grief.

Primary Nominations.

The primary held last Saturday drew a large vote in Muhlenberg, and there were some narrow margins in the vote. Everything was quiet and orderly, and no disturbances were reported anywhere. Following are the candidates named by the Republicans:

- A. J. McCandless, Representative.
- J. Ed. Shaver, Judge.
- T. J. Sparks, County Attorney.
- I. P. Sumner, County Clerk.
- Arthur Lile, Sheriff.
- S. P. Miller, Jailor.
- V. M. Moseley, Superintendent Schools.
- T. C. Casebier, Assessor.
- R. T. Johns, A. M. Creel, W. J. Long, J. R. Kimmel, D. T. Gossett, W. M. Brown, Magistrates.

The Democrats nominated the following:

- R. R. Robertson, Representative.

Home grown watermelons appeared last Saturday, and are getting more abundant, but the crop is light, on early planting, though late melons should be abundant, from present indications.

Miss Carrie Stevens is in Indianapolis, studying fall styles and buying millinery for next season trade.

Fall goods, in some lines, are beginning to arrive.

Makers and wholesalers are now hustling for holiday orders.

Many homes will have as guests next week, teachers of our public schools.

The rain Tuesday night was a boost to everybody, and will do untold good to corn, tobacco and all growing crops.

The road levy was lost by a vote of 3017 against and only 349 for the roads.

Be Sure of the Number Before Calling

The telephone directory is issued at frequent intervals for the information and benefit of the telephone-using public.

Every effort is made to keep this list accurate and up-to-date. It is expected that telephone-users will consult it before making calls. A call for an incorrect number causes delay and possible annoyance to a third party.

Avoid inconvenience to all concerned by looking up telephone numbers in the directory before calling.

Victor supremacy

Before the Victor was offered to the American public, the public only knew music as it was produced on music boxes and cylinder records.

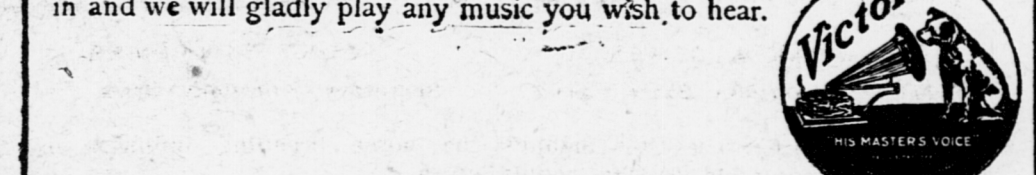

With the invention of the Victor and its disc records, there gradually followed a musical awakening of the American people, for here was music reproduced in exact accord with the artist's interpretation.

And, when the Victor Company, through the lavish expenditure of millions of dollars and the combined efforts of its research and experimental departments, introduced the Victrola to the public, there was immediately established a new standard by which other instruments of like character were measured.

Since this time the gradual decline of the old cylinder types of phonographs and records, has prompted other manufacturers to acknowledge the superiority of the Victrola by adopting a disc type of instrument in imitation of the Victrola, but lacking the exclusive Victrola features which are patented and which no one dares to infringe.

A genuine Victrola costs no more than other instruments that only look like a Victrola.

Victrolas \$15 to \$300. Easy terms, if desired. Come in and we will gladly play any music you wish to hear.

Local Mention.

Large stock of mirrors at Roark's. Small prices.

The weather man continues to be good, and we are having most delightful summer weather.

The Irvin Auto Co. has begun excavation, and will rush the construction on a modern garage on North Main street.

Roark's rubber fly swatter unlimbers like lightning, always gets the fly and never injures the furniture or drapery. Try one, and you'll add full equipment.

The Ford Automobile Co. made 270,000 cars the last three months, ending with their year, July 31, and had booked 160,000 cars. This has been by far the greatest year in the history of the company.

The war reserves who are canning and preserving food are valiantly performing their part of the work.

Mr. and Mrs. Vernie Ford visited relatives in Brownsville last Sunday.

Soldier boys are being turned out and turned down by army medical boards.

This is the last vacation month.

The city council was in regular session last Monday night, and routine business was transacted.

Mr. James Ingram and daughter, Marjorie, of Arkansas City, Kansas, were here the first of the week on a visit to relatives.

Teachers are next week in association work.

Piano recital at college auditorium Tuesday evening.

County teachers will be here in institute work next week.

We show what we advertise. See the Lyon & Healy pianos at Roark's.

Good morning! Did you win in your examination for the army?

Miss Tola Swain, of Winfield, Kansas, arrived the first of the week, and will visit relatives here and other points in Kentucky.

Mrs. John W. T. Givens and daughter, of Princeton, was here a few days this week on a visit to friends.

There is one most important item made in the United States which has world-wide recognition of supremacy. Greatest artists, not only of this country, but of Italy, France, Germany, Spain, Russia, Austria, England and the furthest corners of the earth select the Victor as the exclusive instrument to present their efforts to the whole world. Roark is county distributor, and is glad to play any record you wish to hear.

All the candidates are now getting a rest spell.

Miss Emily Frances Rasco, of Cadiz, who has been here on a visit to her sister, Mrs. C. A. Denny, is now in Hopkinsville on a visit to friends.

Mr. Earle Johnson has secured a position with Mr. R. F. Jarvis.

Don't fail to hear Dr. Hoffmann in recital at college auditorium next Tuesday night. He is a pianist of national reputation, and has been secured so that the public may attend without expense.

Threshermen are just about getting through for the season.

Mr. John William Drake, who has been in Akron, Ohio, for several months with the Goodyear Rubber Co., arrived the first of the week, and will remain here. Greenville boys in Akron are all getting along splendidly, and working into top position.

Join The Red Cross.

Our nation is at war. Thousands of our young men are flocking to the colors. Within a few months a million American soldiers will be under arms. They will come from every city town, village and hamlet in the nation. Your community will send its share of men. They will be dispatched to the battlefields of Europe. Thousands of them will die in their country's service. Other thousands, mangled, crippled and disfigured by shot and shell and suffering from shock and disease, will be tenderly cared for in Red Cross hospitals.

"Back home" thousands of needy families of the men at the front will look to the "firing line" and with their families "at home" the Red Cross will be active day and night. As the "humanitarian arm" of the government, it must unceasingly minister to the stricken ones in army camps, in trenches, on battlefields, in hospitals and wherever the call for mercy comes.

It is your Red Cross that will have to bear the burden. Every man and woman in America is interested. Each can help. Each wants this work of mercy to be carried on free from any handicap. Moral and financial support—equally necessary—are assured only by a large and active membership in the Red Cross.

Your chapter naturally wants to "measure up" in the great national emergency. The people look to their Red Cross leaders for the opportunity to help.

Mr. James Duvall is home from Hopkinsville, suffering from an attack of fever, but his condition is reported as very favorable.

Mr. Gale Williams left the first of the week for Akron, Ohio, where he will work in a rubber tire factory.

Gov. Stanley will speak here Saturday night, at the court house, in the interest of the Red Cross. He will be greeted by a large crowd from all sections of the country.

Wanted Exact Change.

An usher in one of our local churches is telling an incident which indicates that he has at last located the stingiest man, at least in these parts. Some time ago, in his rounds with the collection plate, he was handed a dime by a man who asked for change. This was unusual, for so small a coin, but he took a nickel from the plate and handed to the man. But the man was not playing that strong, and asked for four more pennies, and these the collector was able to fish around and get, as there seemed to have been several penny contributors that morning.

Mr. and Mrs. Geo. Eaves entertained Mr. Eaves' Sunday-school class at their Cherry street home Monday evening, and a most enjoyable occasion it was. Old fashioned games, story contests, short addresses, etc., livened the time, and delightful refreshments were served. There were about forty present.

THIS POINTER

IS WORTH FOLLOWING

Prof. E. B. Weathers, the instructor at the teachers institute here next week, is regarded as one of the ablest men in Kentucky, and is in great demand for this work. Miss Amy Longest was fortunate in being able to secure him, and the teachers and visitors will be greatly benefitted by his lectures and help.

Dr. Jas. O. DeCourcy, of Cambridge, Mass., is visiting relatives and friends, near Dunmore.

Pioneer Woman Dies Here.

Mrs. Cassandra Isobel Heltsley, aged 84 years, died at her home on East Main-cross street at noon last Friday, from arteriosclerosis, from which she had been a sufferer for several years. She was a native of this county, and had lived here for a quarter of a century. She is survived by Mr. John Heltsley of Kirksburg, Mo., Mr. Joshua Heltsley of this county and Mrs. Louella and Emily Heltsley of this city. Interment was in Evergreen cemetery, following a service conducted by Rev. Stallings at 2 o'clock Saturday afternoon at the home.

Mr. Wm. Ranneil, who is engaged in the U. S. government service, on an Ohio river dam just below West Point, is home on a short vacation.

Drakesboro Chautauqua.

The thriving city of Drakesboro is enjoying a three-day Chautauqua, which began yesterday. The program is an excellent one, and the attendance is gratifying, from reports. This makes three Chautauquas held in Muhlenberg this season, and is a record which cannot be equaled, probably, in Kentucky, no matter how large the population. It is a most gratifying condition, and shows the spirit and intelligence of our people, for nothing can exert more lasting force for good than these Chautauqua programs.

Some folks say that money will not buy happiness. Just try a \$15 investment in a Victrola at Roark's.

Weather Forecast for the Week.

Forecast for the week beginning Sunday Aug. 5, 1917. For Ohio Valley and Tennessee: Warm Sunday, lower temperature Monday or Tuesday, moderate thereafter. Generally fair, except widely scattered local thundershowers.

Let Roark show you some rare wallpaper bargains.

There were perhaps more than the usual number of surprises in the candidates named in primary last Saturday, other folks being as much surprised at the candidates themselves. But there is no sorcery, and every body is accepting the will of the majority.

Use tungs-tone needles and save two-thirds the wear on your records. Roark.

Old newspapers for sale, this office.

Piano Recital Tuesday Night.

Dr. Frederick J. Hoffmann, teacher of piano in the Cincinnati College of Music, will give a recital here at college auditorium next Tuesday night, and our people will have opportunity to hear this great artist without expense, as admission will be free. Dr. Hoffmann has won wide recognition both as a performer and teacher, and is held in high esteem by several pupils from here who have been privileged to study under him. The capacity of the auditorium will doubtless be taxed.

Mr. Edward Reno, who has been suffering from an attack of fever, was improved greatly yesterday.

Mr. and Mrs. Arch Shelton are entertaining a fine girl, born last Sunday night.

Get any sort of sewing machine equipment from Roark.

A Good Resolution.

Resolved: With a sincere desire to be of the greatest service to my country, I will strive to maintain a cheerful and rational attitude, I will make the most of what I have in the place where I belong and so assist to preserve a normal condition at home, that when the war is over and our soldier boys return they will find that I have been as faithful and fearless as they.

An Invitation—and a Warning

As dealers in VICTOR talking machines and LYON & HEALY pianos, we extend an open invitation to everyone to call and see, try and hear our offerings, entirely without obligation. We desire to show our goods in connection with similar items on the market, and advise prospective customers to look about, as comparisons are educational. We have no secret price, and we seek no exclusive privilege, for the purchase of either a piano or talking machine is too serious a matter to enter upon lightly, and we suggest that you spend some time in investigation before you spend any money, or obligate yourself for future payments. If you secure the right items, either a piano or talking machine will delightfully serve you indefinitely—so the time you spend in testing and selecting will pay great dividends. A visit with us may prove to be one of profit, as well as pleasure. Our time will be gladly given, whether you buy or not.

THE J. L. ROARK ESTATE
J. L. ROARK, Manager
Greenville, Kentucky

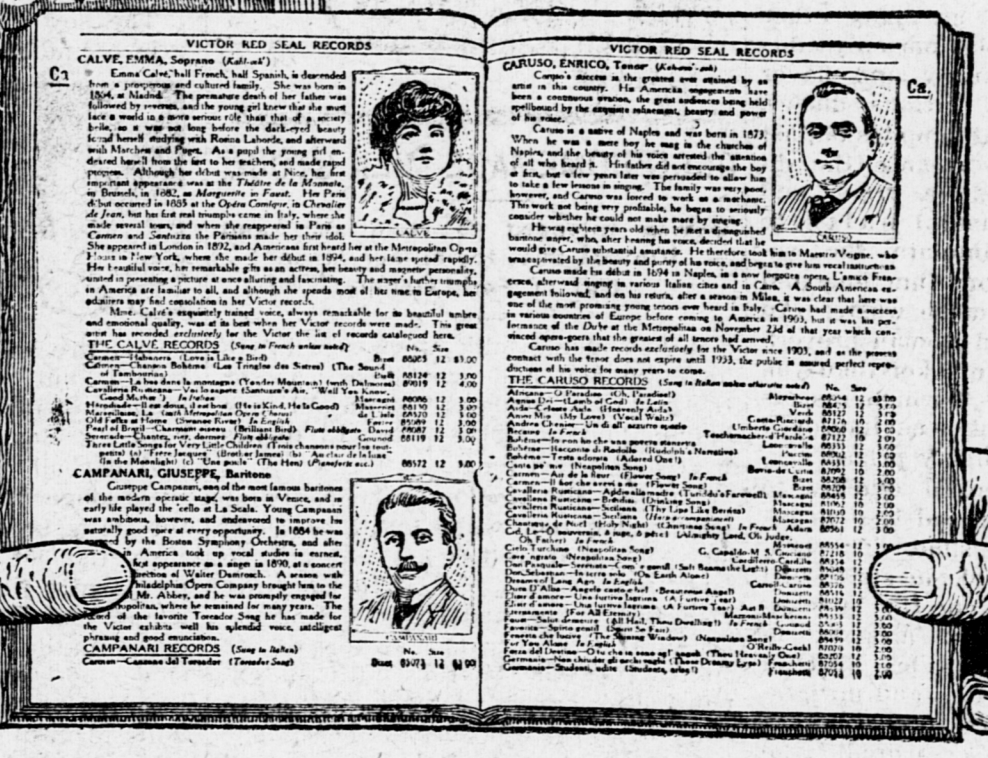

Mr. Harry Thomas, well known here, where he attended school several years ago, was injured in Louisville Monday when he fell from the running board of a locomotive of the K. & L. Terminal Railroad Co., where he was working as switchman. His leg was so severely injured that amputation was necessary. His conditions was reported favorable yesterday.

Army examination and exemption board is busy these days, and working overtime on the first call boys.

VICTOR RECORDS

A copy of this great book is yours for the asking

The Victor Record Catalog
is the most complete catalog of music in the world

It is the recognized authoritative index to the world's best music, to the greatest musical achievement of all time.

It has required nineteen years of constant research, of tireless effort, and the expenditure of eleven million dollars to place this catalog in your hands.

Its 506 pages tell you not only all the music that the Victrola brings to your home, but give you a wealth of interesting information about all the great artists who make records for the Victor exclusively, and about operas, composers and musical history.

Through each and every page runs the story and proof of Victor Supremacy. Each and every page is a reason why the Victrola should be in every home.

If you are a music-lover, you should call on us for your copy of this great book, whether or not you have a Victrola in your home.

Visit us to-day and get your copy

For Everything Musical

Study Food Values

Food provided for the family table deserves the careful thought of every housewife. Do you use thought when buying baking powder?

The quality of cake, biscuits and all quickly raised flour foods depends largely upon the kind of baking powder used.

Royal Baking Powder is made from cream of tartar derived from grapes. It is absolutely pure and has proved its excellence for making food of finest quality and wholesomeness for generations.

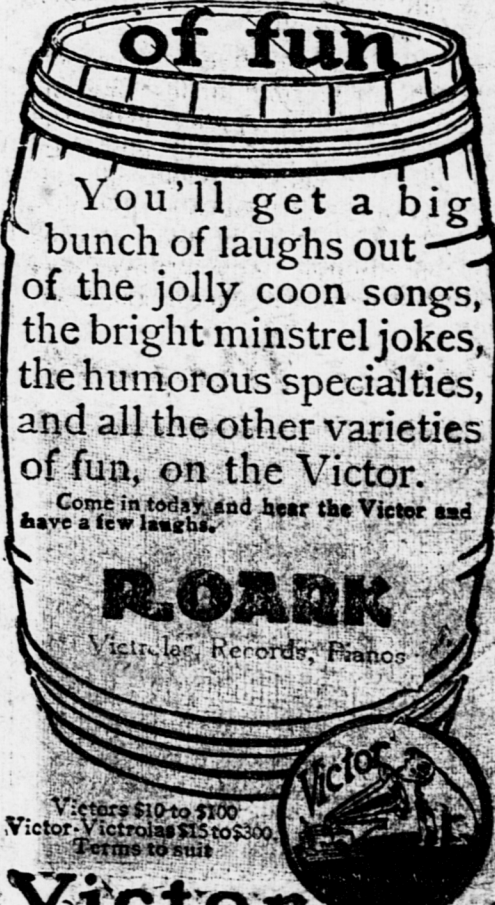

Royal Baking Powder contains no alum nor phosphate.

ROYAL BAKING POWDER CO.

A creed of the Open Road—To live our highest in all things that pertain to us, and to lend a hand as best we can to all others for this same end.—Ralph Waldo Trine.

ASPARAGUS AS A TONIC.

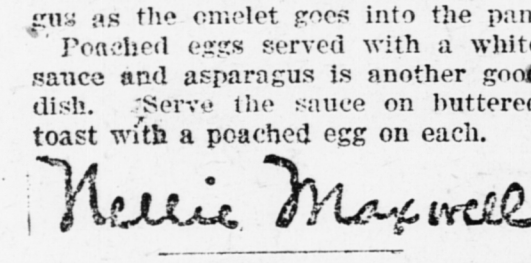

Asparagus as well as many other green, tender vegetables not only adds variety and flavor to various dishes, but supplies ballast to cleanse the digestive tract and mineral salts to stimulate the various functions and remove waste. An old Roman proverb was, "Let it be done quicker than you would boil asparagus," which discovery years ago has not been improved upon. This tender, highly prized vegetable should be cooked quickly to hold all its fine flavor and lose as little of its salts as possible. The best method to have the whole stalk well cooked at once is to put the bunches well tied into a deep pan, an old-fashioned tin coffee pot is an ideal dish, as the asparagus then will stand upright. The best sauce for asparagus is perhaps plain melted butter. Dipping the stalks into the butter and eaten as one does celery. The following sauce is rather difficult to make but is the best of all sauces for asparagus.

Mousseline Sauce.—Take a half cupful of butter, three egg yolks, two and a half tablespoonsful of lemon juice, a fourth of a teaspoonful of salt and a few grains of paprika, and a fourth of a cupful of heavy cream. Cream four tablespoonsful of the butter, beating the egg yolks in thoroughly, one at a time, then add the cream and salt and pepper. Set the mixture over hot water and cook until it thickens, stirring constantly. Then beat in the lemon juice and add the rest of the butter in small bits, beating with a whisk. Do not reheat.

Asparagus served in a rich white sauce served on toast is a dish most common. Asparagus cut in small pieces and cooked in milk is another good way to save every bit of the flavor. Season with salt, pepper and butter and if liked, a small amount of flour may be added for thickening.

Asparagus cooked and added to an omelet is another good dish. Simply fold in a few tablespoonsful of asparagus as the omelet goes into the pan. Poached eggs served with a white sauce and asparagus is another good dish. Serve the sauce on buttered toast with a poached egg on each.

Nellie Maxwell

Worse than being hit by a parrot may be talking to not always to converse.—Covier.

SEASONABLE DISHES.

Cook separately until tender potato balls or small, even-sized potatoes, beets of the same size and small button onions, two cupsful of each. When well chilled, marinate each in French dressing, roll the potato balls in parsley and roll the beets and onions in a bed of lettuce on a platter. Around these arrange the onions, and the beets outside against the green of the lettuce.

Mocha Macaroons.—Make a custard with the yolks of four eggs, one-half cupful of strong coffee. Add six tablespoonsful of powdered macaroons to this and bake the custard until set. When cold, cover with the whites of the eggs whipped stiff with a quarter of a cupful of boiling hot sugar and a half cupful of whipped cream. Garnish with candied cherries and angelica.

Creams of brown bread rolled fine and stirred into cream makes a change which is well liked.

Winchester Nut Bread.—Dissolve a half cupful of brown sugar and three-fourths of a cupful of hot water; add a half cupful of molasses and three-fourths of a cupful of milk; stir two cupsful of entire wheat flour and a cupful of bread flour sifted with two and a half teaspoonsful of baking powder, three-fourths of a teaspoonful of soda, one and a half teaspoonsful of salt and three-fourths of a cupful of coarsely chopped walnuts. Turn into a buttered pan and bake an hour and a quarter.

Cheese Eggs.—Butter a baking dish or six ramekins and spread the bottom with grated American cheese; slip in six eggs, dust with salt and pepper and cover with more cheese, using three-fourths of a cupful; cover with buttered crumbs and bake with cream. Set in hot water and bake slowly until the eggs are set—about ten to twelve minutes.

German Fried Noodles.—Cut noodle dough into strips four inches long and three inches wide; spread with seasoned, cooked spinach and place another piece of noodle dough on top; pinch together like turnovers and dip into well-seasoned soup stock to cook about ten minutes. Any left-over may be rolled in parmesan cheese and fried.

Roark's Greenville, Ky.

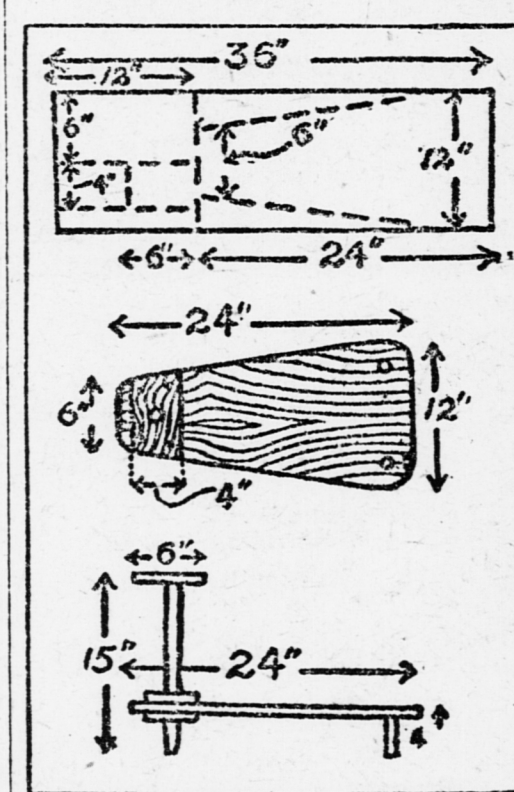

GOOD HOMEMADE MILK STOOL

Device Intended to Hold Pail and Provide Seat for Milker Made Out of Fork Handle.

A homemade milk stool, serving to hold the pail and provide a seat for the milker is made out of an old fork handle and an inch board 12 inches wide and 3 feet long.

To make the stool cut a board 2 feet long and 1 foot wide. With a draw-shave taper it to 6 inches wide at one end. Two cleats, each 4 inches by 6 inches, are fastened crosswise of the grain at the narrow end to prevent splitting of the board. With an expansive bit or bridge auger, drill three holes in which to insert the legs. The two front legs are cut from an old fork handle, and hold the pail platform.

Homemade Milk Stool.

form 4 inches above the floor. The back leg is driven through leaving the pail platform level with the floor, and projecting above to support the seat at a height convenient for the milker. A cross piece 6 inches by 12 inches serves as a seat, and is secured on top of the back leg with a wood screw. This stool removes the weight of the pail from the milker's knees, yet supports it in the same position. If the cow should want to kick, the milker can shift all the weight to the back leg, and swing the pail from beneath the animal.

Materials required: First, fork handle cut as follows: One piece, 15 inches; 2 pieces, each, 4 inches. Second, inch board 3 feet by 1 foot cut as follows: One piece, 12 by 24 inches; 2 pieces, each, 4 by 6 inches; 1 piece, 6 by 12 inches.—Board's Dairyman.

BIG MONEY FROM PUREBREDS

Interesting Comparison Made by Illinois Agricultural College on Dairy Profits.

A comparison of the yearly incomes of 124 farms where purebred bulls were kept at the head of the dairy herd, with 499 dairy farms where a grade bull was used, has been made by the Illinois Agricultural College.

The average farm income for the first list of farms was \$1,102 after deducting taxes, interest on investment, etc. Where a grade bull was used the farm income was \$734. On 83 farms where scrub bulls were used the farm income was only \$243, or only half enough to pay interest on the investment, to say nothing about any pay for the owner's time.

HANDY COVERED MILK PAILS

More Important in Dirty Stable Than in Clean One—Wire Gaze Is Sometimes Used.

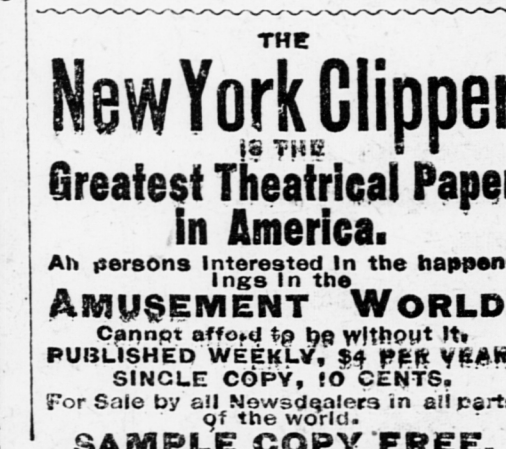

Covered milk pails are more necessary in a dirty than in a clean stable. Such pails are designed to reduce the size of the opening and thereby expose less milk to the air and the dust. In some cases, layers of cotton and wire gaze are placed over the small-topped pail.

Careful trials have demonstrated that 60 per cent less dirt and from 25 to 90 per cent fewer bacteria get into the milk when covered milking-pails are used.

DAIRYING INDUSTRY IN WEST

Small Farmer Is More Dependent Upon Sale of Products Than Many Are Ready to Admit.

No greater calamity could befall the farmers of the West than the destruction of all places where cream or butter could be sold. The small farmer is more dependent upon the sale of dairy products than many are willing to admit. The cream-receiving stations and the possibility of easy shipment to the creamery have fastened upon the mind of many western farmers and as such they will continue to be.

Roark's Greenville, Ky.

Good nature will always supply the absence of beauty, but beauty cannot supply the absence of good nature.—Goldsmith.

GOOD DISHES.

The soy bean is being extensively grown and is a most profitable field crop to be used in various ways; as yet, it has not been largely used for human consumption, but it is worth trying, as it sells at a much cheaper price than the ordinary table beans.

Black Bean Soup.—Soy beans are of different varieties and colors, but all contain a valuable amount of protein and are rich in food values. Soak the beans overnight and parboil them. This may take a little longer than the time required for the navy bean; then put into a kettle with beef or pork bones and simmer gently for four hours, add salt, a whole onion, and pepper. Boil the beans until soft, then put through a sieve, add a little butter and flour creamed together for a binding, and a tablespoonful of Worcestershire sauce, a hard-cooked egg, finely chopped, and one and a half tablespoonsful of lemon juice.

Baked Beans With Sour Cream.—Soak three cupsful of beans overnight and in the morning parboil with a fourth of a teaspoonful of soda. Drain, place in earthen baking dish with salt, pepper and a little olive oil or butter. Turn over the top a cupful of thick sour cream, cover and cook slowly four or five hours. Uncover the last hour and add a half cupful of sugar or less if desired sweetened.

Whole Wheat Ginger Bread.—Take a half cupful each of sugar and molasses, a cupful of sour milk, a teaspoonful of shortening, a fourth of a teaspoonful of salt, a tablespoonful of ginger, and two and a half cupsful of whole-wheat flour. Mix well and bake in a moderate oven. Serve with whipped cream as a dessert.

Kidney Bean Salad.—Take a can of kidney beans, one-half cupful of celery diced, a cupful or less of nut meats, a shredded green pepper, serve on lettuce with French dressing.

To occupy the guests before the dishes are ready a fruit cocktail or a cup of hot bouillon may be served. Six people are plenty to be served from a chafing dish; if there are two in operation more guests may be supplied.

Nellie Maxwell

An ounce of prevention is worth a pound of cure, but it is just as well to be provided with both.

GOOD THINGS FOR THE TABLE.

Watercress is found in so many springs that it should be more widely used. As a spring tonic it has no equal in the vegetable line, served with French dressing or eaten with a sprinkling of salt with a lamb chop, it is an ideal salad and garnish.

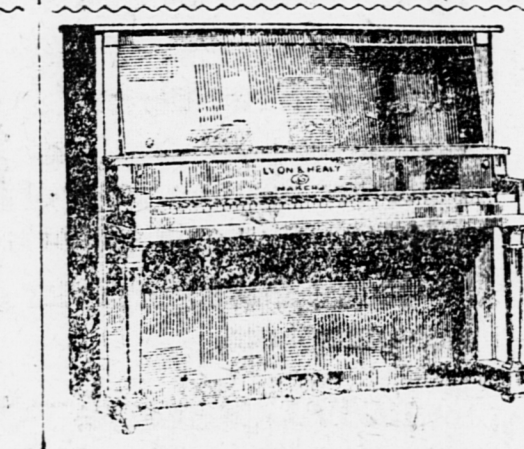

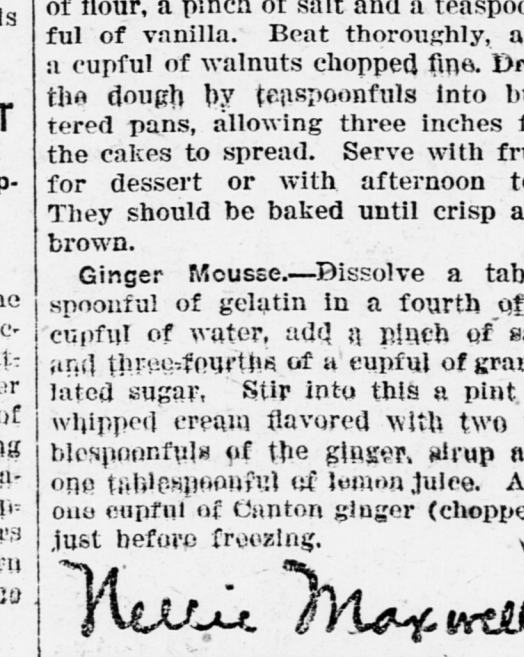

Cream of Watercress Soup.—Pick over and wash two quarts, or four bunches, of cress, boil it in a quart of water for five minutes, drain and save the water. Pound the cress with two tablespoonsful of butter. In a saucepan mix four tablespoonsful of flour and three of butter, when well blended add the cress water and two quarts of veal broth, cook 15 minutes. Skim, add the cress, strain, and return to a saucepan and boil ten minutes, the yolks of four eggs beaten with a cupful of thin cream. Pour very hot into a tureen and serve with croutons.

Curry of Chicken.—Melt two tablespoonsful of butter, add one teaspoonful of finely chopped onions and half a chopped apple. Fry them together, then add a tablespoonful of grated coconut, one quarter of a spoonful of English mustard, one tablespoonful each of curry and flour. Mix all together and cook two minutes, then moisten with a cupful of chicken stock, when boiling add the meat of half a fowl torn in shreds and let simmer for ten minutes, add three tablespoonsful of cream and season with salt and pepper. Serve with fresh boiled rice.

Crispettes.—Beat two eggs and stir into them a cupful of white and brown sugar mixed, add four tablespoonsful of flour, a pinch of salt and a teaspoonful of vanilla. Beat thoroughly, add a cupful of walnuts chopped fine. Drop the dough by teaspoonfuls into buttered pans, allowing three inches for the cakes to spread. Serve with fruit for dessert or with afternoon tea. They should be baked until crisp and brown.

Ginger Mousse.—Dissolve a tablespoonful of gelatin in a fourth of a cupful of water, add a pinch of salt and three-fourths of a cupful of granulated sugar. Stir into this a pint of whipped cream flavored with two tablespoonsful of the ginger, strap and one tablespoonful of lemon juice. Add one cupful of Canton ginger (chopped) just before freezing.

STYLE XVI VICTROLA, \$200

The Aristocrat of the Victor Family

Its very appearance suggests culture and refinement—the kind of instrument you are proud to have in your home—to have your friends see—that brings you prestige and their respect.

To appreciate its individuality and wonderful tone reproducing qualities it must be seen and heard in comparison with all other models. Artistic—made from choicest woods—beautifully finished—it enters the finest homes to delight and entertain. To own one is to know complete satisfaction.

VICTROLAS, RECORDS, CABINETS, SUPPLIES

The J. L. ROARK ESTATE
GREENVILLE, KENTUCKY

A History of Muhlenberg County

BY OTTO A. ROTHERT

THIS book tells of the wilderness conquered, and of the adventures of the men and women who founded and developed the county up to and since the beginning of the railroad era, and made possible the achievements of to-day. It is the story of the county from the standpoint of its personal and public traditions, which have been arranged in related groups and form an almost continuous narrative.

It was published in 1913. Competent judges have pronounced it the best county history ever published in the United States. The *Courier-Journal* says, "The book is worthy of study, not only for the pictures it gives of early times and early society, but for the wealth of its curious and valuable illustrations and its expositions of the industrial and social progress of the county and its towns." The *Western Recorder* says, "It is more interesting than a good novel; it will interest old and young alike." The *Greenville Record* says, "Every Muhlenberger and former citizen of the county will value the book far above the price at which it is offered." The *American Historical Review* says, "The book not only contains much that is of interest to the student of Kentucky history but is written in a pleasing style."

It is a labor of love offered at cost of production, the author's time and work being contributed. The book contains 500 pages, 240 excellent illustrations and a complete index. It is printed on a superior quality of paper and is handsomely bound in dark red cloth.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Mendonsville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak... I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

doses of Black-Draught." Seventy years of successful use has made Theodor's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lax liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose. All druggists. J. 62
